NEW NGK SPARK PLUG EUROPE CATALOGUE FOR SPARK PLUGS AND GLOW PLUGS LISTS MORE THAN 20,000 VEHICLE APPLICATIONS

// RATINGEN, 14.10.2016

NGK Spark Plug Europe has published an updated version of its spark plug and glow plug catalogue. It includes more than 1,500 new vehicle applications for petrol and diesel engines. Additionally, the ignition and sensor specialist has changed contents of the catalogue to provide more added value and make it even more easy to use.

The catalogue lists all available spark plugs and glow plugs offered under the brand NGK Ignition Parts and, with this, more than 20,000 vehicle applications. The newly added 1,500 applications are distributed equally between petrol and diesel engines and include a wide range of recent technological developments and OE innovations for car manufacturers such as Ford, Fiat Chrysler Automobiles, Opel/Vauxhall, the Volkswagen Group, Renault, Peugeot and Citroën. Additionally, NGK has improved the design of the catalogue sections to make finding the perfect spark plug or glow plug child's play.

The catalogue also includes a wide range of technological information to enable workshops to do the perfect job. It comes with updated tightening torque tables as well as new application and cross-reference lists for the bestselling assortments V-Line, D-Power and LPG Laser Line. The catalogue also features a new conversion chart to identify a high-tech iridium spark plug as an alternative to standard spark plugs.

The catalogue includes 13 languages and is available in print as well as as a PDF file, which can be downloaded from NGK Spark Plug Europe's website at www.ngk-europe.com.

About NGK Spark Plug: NGK Spark Plug is one of the leading automotive suppliers. Specialised in the fields of ignition and sensor technology, the Company supplies customers in Original Equipment and Aftermarket across the globe. Its product portfolio comprises spark plugs, glow plugs, ignition coils and ignition leads under the brand NGK Ignition Parts as well as mass air flow and manifold absolute pressure sensors, lambda sensors, exhaust gas temperature sensors and NOx sensors under the brand NTK Vehicle Electronics. The Company runs production plants and sales organisations all over the world. With a total of 13,000 employees, it generates an annual turnover of around 2.7 billion euros. NGK is represented on all continents and has 43 group companies, 24 production plants and 5 technical centres.
