IGNITION & SENSOR SPECIALIST

Founded in 1936, the NGK SPARK PLUG Corporate Group, known around the globe as a leading manufacturer of spark plugs, has always developed ceramics as its core competence. Over the years, the company has established a track record of successfully applying the expertise gained in the field of ceramics to other areas to create new value.

Today, NGK SPARK PLUG is a leading manufacturer of ignition parts and vehicle electronics both for OEMs (Original Equipment Manufacturers) and the IAM (Independent Aftermarket) with over 80 years of experience. A total of 41 subsidiaries, 29 production plants, 4 Technical Centers and 14,500 employees around the world ensure optimum processes and a great wealth of knowledge.

The world leader in spark plugs and oxygen sensors, NGK SPARK PLUG has built a strong reputation for quality, reliability and a commitment to excellence. Now as then, the ignition and sensor specialist is dedicated to providing customers with world-class products and services.

In order to react more quickly to the global and regional changes of the market and the NGK SPARK PLUG environment, the company has switched from a central to a regional company management model. As a result, NGK SPARK PLUG EUROPE GmbH, based in Ratingen, Germany, became the EMEA Regional Headquarter in 2017 and has extended its responsibility from only Europe to include Middle East and Africa. Today, the EMEA markets are key to NGK SPARK PLUG's success, making up 25 percent of NGK SPARK PLUG's total global sales.
